DIFM Company Overview

CREATING VALUE FOR CLIENTS

Danah Integrated Facility Management

Al Rashid Trading and Contracting Company was established in 1957 and expanded vigorously in field of contracting. RTCC was awarded to build numerous houses, college campus, medical centers, infrastructure, water supply works and railway projects from renowned clients.

In 2020, DANAHA Real Estate - Facility Management Division well known as DIFM was established as sister company of RTCC and is providing Integrated Facilities Management to properties owned by RTCC. These properties include multiple Residential and Commercial Buildings, Highrise Towers, Mega Mall and Hotel.

Since its inception Danah DIFM is committed to provide quality-oriented services and to create sustainable working and living conditions for the end users of properties.

The company is looking forward towards organic growth and to become a leading provider of Integrated Facilities Management and Support Services to Clients through a team of experts with in-depth knowledge and specialization in various FM and QHSE Services.

Danah Integrated Facility Management

DIFM Vision and Mission

VISION

To lead the Saudi Facilities Management market as a preferred and trusted service provider by delivering cost effective, innovative and quality service; and by creating safe and better working and living environment.

MISSION

Provide exceptional and sustainable Facilities Management solutions creating value for our clients.

CREATING VALUE FOR CLIENTS

Hard Service

DANAH provides a full range of IFM Services:

Our Hard Services are based on state-of-the-art maintenance strategies, which increase equipment availability, reduce number of failures and down time, reduce maintenance cost and increase life span of assets. With our competent technicians across the Saudi Arabia, we have the unique capability to deliver customized maintenance services. Our flexible delivery models and range of specialisms enables us to tailor cost -effective service to your contract, addressing the specific requirements at each of your locations.

Within our CAFM System we have developed maintenance schedules covering 40 types of building systems from SFG20, the international standard for building maintenance.

- Maintenance Efficiency = Maintenance Man Hours / Operating
- Maintenance Effectiveness = Operating Time / Operating Time + Down
- Building Maintenance
- MEP Systems Maintenance
- HVAC Systems Maintenance
- Low Current Systems maintenance
- Utilities and Infrastructure maintenance
- Civil Works
- Renovations & Modifications

Soft Services

Being an accredited member of British Institute of Cleaning Science (BCIS), our Cleaning Teams deliver a healthy and welcoming environment for your customers and visitors. We know that a good consistent cleaning standard can make a big difference to people's perception of your business and its brand. To achieve this, we focus on developing the core cleaning skills of our staff and frontline supervisors through our dedicated training center. Our housekeeping staff are trained to use the internationally recognized standards. Our trainers are qualified for 23 skill units as BICS assessors.

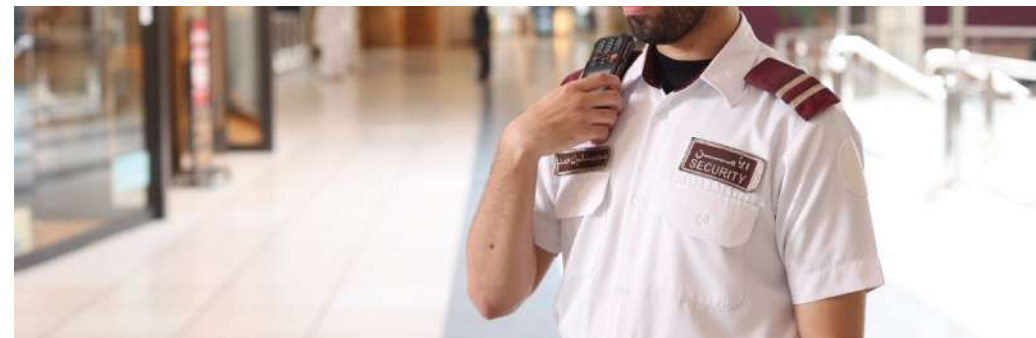

- Janitorial Services
- Hospitality Services

Consulting Services

DANAH FM has the expertise to provide consulting services to clients in their problem areas and provide solutions to help them to optimize cost, risk and performance in their facilities management operation.

- Maintenance Strategies
- Planning and scheduling-increasing manpower efficiency
- Asset Management-Optimize Cost-Risk-Performance
- Inventory Management
- FM Key Performance Indicators
- Quality Assurance and Performance Management
- Policies and procedures
- Energy Conservation

Customer Services

DANAH FM services are customer satisfaction focused. In vision of this, our Customer Services / Helpdesk provides 24/7 centric services. They deal with all FM related service enquiries, and will provide the essential coordination between client requests and the service delivery team. Our staff is trained to communicate and handle in Arabic and English.

Our Customer Services team will log all facilities and maintenance requests against client, regions, zones, buildings and services into our CAFM system. Our system will allow tasks to be monitored and tracked seamlessly from initial request right through to completion, and will also provide a flexible and scalable call handling solution as per business needs.

A periodic Customer Satisfaction Survey is being conducted to monitor the performance of the customer service team.

All our Customer Service Operators are given the following training:

- Customer Service Skills
- Complaint Handling
- Call & Escalation Management and Overview of Contract
- Service Agreements/SLAs and KPIs

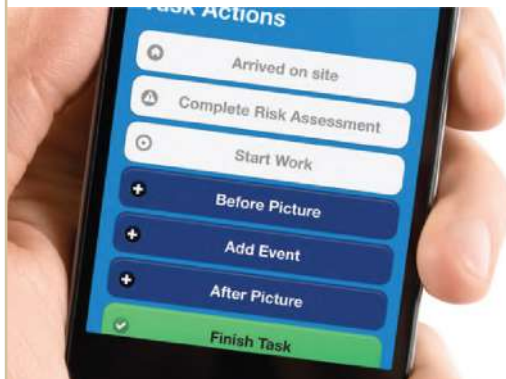

CAFM System & Reporting

DANAH FM operates, extremely powerful, easy-to-use web accessible facilities management software called FSI. FSI provides DANAH and its Clients with critical on demand operational data for its users and Operators in any location. It offers a single, or holistic view of your buildings and maintenance activities, and can easily track reactive and planned maintenance activities, service level agreements, critical spares, buildings, assets and people. In simple CAFM helps manage your facilities. Stay on top of work orders, track customer requests, optimize asset life-cycles and manage preventative maintenance. Trend Analysis of data lead to continuous improvement.

Our inhouse CAFM team can also customize daily, weekly or monthly auto generated email reports that come directly out of Concept Evolution.

Training

DANAH IFM training center provides training and development for the primary areas of Facilities Management division, which includes HSE, Quality, Housekeeping, Technical and Soft Skills.

Each service line is headed and led by a recognized industry expert which allows our clients to benefit from industry best practice, new trends in facilities management and innovative ways of cultivating environments for strong and efficient performance.

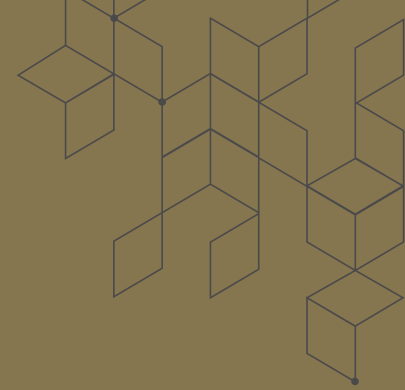

All operatives are required to attend the training before being deployed onto any site. Apart from regular trainings, Toolbox Talks and ad-hoc trainings are conducted with field staff as per need.

DIFM Standalone Services

CREATING VALUE FOR CLIENTS

Danah Landscaping Services

Our services are completely supported by an extensive workforce and a full organization of managers, enabling us to take on and complete small and large scale projects with total efficiency.

SOFT LANDSCAPING

LAWN MAINTENANCE

This includes roadside walkways, residential gardens, cricket and football fields, mowing, edging, pest treatment, fertilizer application, aeration, and dethatching for lawn areas.

PLANTING BED MAINTENANCE

These maintenance activities include pruning, trimming, weeding, thinning, mulch upgrading, pest control, fertilizer application and gap filling operations.

TREES AND PALM CARE

To maintain the trees' natural shape and physiological integrity while pruning and trimming them, an arborist must apply fertilizer and conduct specialized inspections.

SEASONAL

This includes the regular plant maintenance such as weeding, thinning, pest control, fertilizer application, gap filling operations as well as replacement of seasonal as required based on the season.

IRRIGATION SYSTEM MAINTENANCE

In order to guarantee the most effective use of water and avoid both small and significant damage to the irrigation equipment, irrigation system maintenance is required. Danah IFM offers maintenance programs for all residential, commercial and industrial projects.

Danah IFM coordinates, diagnoses and (as required) repairs the client's irrigation system/s to preserve the landscaping all year round. Specialists ensure adequate supply of irrigation water through drip lines, sprinklers and spray heads to planting beds and turfs. Regular maintenance reduces the occurrence of leaks and preventative maintenance of pump stations eliminates expensive breakdowns. The company's maintenance services include: multi-electrical and mechanical inspections, parts replacement and prompt provision of a detailed report with any recommendations required, whilst maintaining the system in operation at all times

Danah Landscaping Services

LANDSCAPE LIGHTING MAINTENANCE

Good quality and well-maintained lighting are essential for the safety (and success) of any outdoor project. Danah IFM's qualified personnel ensure all landscape lights are well maintained, in working order and carry out replacements promptly whenever necessary.

HARD LANDSCAPE MAINTENANCE

Hard landscaping includes roads, paths, cladding, and other landscape elements composed of various hard materials such as quartzite, granite, sandstone, pebbles, wood, and concrete with decorative and pattern imprinted on it. Danah IFM provides a variety of maintenance services which ensure increase their durability and longevity of service life.

DIFM provides a high-standard external and internal facade cleaning service for whole types of facilities from retail shops to high- or low-rise, corporate and residential buildings. DIFM uses a wide range of solutions for facade cleaning including Rope Access Solution, Mobile Window Cleaning System, and Boom Lifts.

As the Industrial and corporate buildings with tall glass panels demand periodic cleaning from time to time in order to maintain its appearance as well as to increase its life span. We have got intensive expertise in façade cleaning with high range façade cleaning services including internal & external glass cleaning, panel cleaning, as well as steel structure cleaning, marble, concrete or canopies washing, and many other similar services offered to our clients only by DIFM.

We can offer our façade cleaning services in Central, Eastern, and Western regions of Saudi Arabia.

Danah Manned Security Services

TRUSTED ONSITE SECURITY SERVICES

Our on site security services are intended to give residential, commercial, healthcare, industrial, educational, leisure and hospitality sector a physical presence and 24-hour protection. We send out skilled, trained security guards who can deal with and prevent theft, vandalism, illegal entry, and other security-related events.

DIFM manned guards will protect, observe and report promptly any unusual activity in the area.

We ensure that our Guards are out performing their duties and helping us exceed our client expectations. The Security personnel deployed on sites are not only the face of our company, but they are also the first point of contact for our clients and their visitors. Keeping this in mind, we carefully recruit and polish them with the skills needed to make a lasting impression on every passer-by.
